

IBM® Spectrum Protect™ (TSM) Delaware Valley User Group Meeting

Spectrum Protect (TSM) User Group Meeting

Tuesday, December 12, 2017 12:00pm – 4:30pm

Come join IBM for a Spectrum Protect product update and roadmap. Come learn about the new Spectrum Protect Plus to protect your VMware and Hyper-V environments, roadmap, as well as other topics below. We will have various speakers, including representation from Product Management. In addition, customers can provide direct input regarding what features and functions that they would like to be added to the Protect product. Come with questions, success stories, and concerns that can be shared with IBM, and network with other Protect users within the community.

Agenda Topics:

- Spectrum Protect Update
- Deduplicated Storage Pool Options
- Spectrum Protect Plus for Virtual Environments
- Security Changes in 8.1.2, 8.1.3, and 7.1.8
- Spectrum Protect Roadmap
- Open Discussion Topics with IBM and Peers

Lunch will be provided.

AUDIENCE: Backup Administrators, Storage Administrators, Managers

DATE: Tuesday, December 12, 2017 12:00pm – 4:30pm

LOCATION : The ATS Group – 1200 Atwater Drive, Suite 170, Malvern PA 19355 (East Entrance) [MAP](#)
